

GERMANS IN FULL RETREAT

SIEGE OF ANTWERP TO BE STAGED BY GERMANY

France Furnishes Description of Field of Battle Showing the Greatly Extended Line of Operations

(By International News Service.)
PARIS, Sept. 29.—Night and day at-
tacks by Germans on the allies' left
wing were repulsed, according to an
official statement at 3 p. m. today.
The statement follows: "On our left
wing, north of the Somme river and
between the Somme and Oise, the

enemy attempted night and day at-
tacks and were repulsed. North of
the Aisne there is no change. At the
center in Champagne district and to
the east of Argonne the enemy is en-
gaged in conducting a heavy bom-
bardment of our positions. Between
the Argonne region and the Meuse

slight progress has been made by our
troops, who find themselves facing
strongly organized positions on the
heights of the Meuse. In the Woivre
section and on our right wing, Lor-
raine and the Vosges, there is no no-
table change. In a general way our
line has been thrown east and west
along a point from the region of Pont
a Mousson, Apremont, to the Meuse.
In the region of St. Mihiel, on the
heights to the north of Spada and
part of the heights to the Meuse to
the southwest of Verdun, between
Verdun and Rheims, the general front
is bounded by a line passing through
the region of Varennes to the north
of Souain and Chasseuse Romaine and
at Rheims encloses all approaches to
Rheims, the Rheims road to Berry au
Bac and the heights called Chemin du
Dames.

BRING BIG GUNS TO BEAR ON THE ALLIES LINES AT AISNES

HAND TO HAND FIGHTING WITH
ENORMOUS LOSSES ON
BOTH SIDES.

(By Associated Press.)
LONDON, Sept. 29.—The terrific
battle of Aisne, now in its eighteenth
day, continues to rage with such vi-
olence that a decisive result it is be-
lieved will come soon. Furious hand
to hand fighting is going on and the
losses of the allies and Germans is
enormous. Several times the Ger-
mans hurled their masses against the
French left wing, but were repulsed,
according to Paris reports. Heavy
cannonading is going on along the
center. Austrian siege guns have
taken the place of those the Germans
had near Antwerp, where it is re-
ported 150,000 Germans are preparing
for the siege of Antwerp. The Ger-
man guns have been taken to the
French district of Aisne.

CONTESTANTS WELL PLEASED
WITH RECEPTION AND LIB-
ERAL PURSES.

The marksmen attending the first
annual tournament of the Tonopah
Gun club are enthusiastic over the
reception they have received from
local patrons of the game. They say
they never saw a place where the
prizes and added money were greater
than those offered here and they
agree that not another place with a
limited number of entries would con-
tribute so liberally to the card. Yes-
terday the cups were awarded. A. P.

Walter Warren came in first, A. P.

JUDICIAL CONTEST DOES NOT CHANGE THE RETURNS

The judicial contest between the
incumbent, Peter Somers, and Emmet
Walsh, who is credited with receiving
a majority of the votes at the
primary election, is proceeding slowly
at the courthouse without develop-
ing any material changes. At noon
three precincts of Luckyboy, Haw-
thorne and Aurora had been can-
vassed. One ballot marked with
pencil for Walsh was rejected, but it
turned out that this ballot had al-
ready been discarded and did not
figure in the count. So far there has
been no change in the ballots cast.

Demand War Be Continued

(By Associated Press.)
BERLIN, Sept. 29.—Prominent
business men demand that the
war be continued until such
time as a German success com-
mensurate with the gigantic sac-
rifices entailed in securing last-
ing peace for future. They say
they are prepared to make any
financial sacrifice needed to as-
sist the Kaiser.

The team shoot failed to mature,
owing to the fact that Ely did not
send a team as promised. This ac-
tion is ascribed by the Ely Record
to the fact that Tonopah has not
taken any interest in matters occur-
ing in the copper camp, especially
last spring, when only three men
from Tonopah attended the shoot in
Ely. It was also said the action of
the Knights of Pythias in not send-
ing a delegation to the recent state
convention showed this camp was
not in sympathy with occurrences in
Ely and therefore the people of that
place resolved they would not take
part in the local tournament.

Sam Huntley, champion shot of the
world, hailing from Vancouver, car-
ries a trophy that cannot be equalled
by any other candidate for honors at
the target. This is a fob and watch
chain each link of which represents
a perfect score of 50 made at an in-
terstate shoot. The chain consists
altogether of twenty links, indicating
that the wearer made that number of
perfect marks. After the last link is
earned the recipient receives a watch
to complete the compliment. The
gift comes from the Hercules Powder
company and the only stipulation is
that the contest be with Hercules 25,
C. or Infalible powder. Mr. Huntley
is now beginning a new chain which
he intends for his wife, who will be
the only woman in the world wearing
such a trophy.

In the merchandise shoot of Sun-
day the name of Russell Williams
was omitted from the contestants for
the second prize. With Warren, Hal-
liburton and Pittman he tied, making
46 targets each, Warren winning in
the shoot off.

200 LBS. JEWELRY ROCK PLASTERED OVER WITH GOLD

GINGLES BRINGS IN TWO SACKS
BULGING WITH HIGH
GRADE.

A combination shaft is the latest
from the gold zone. The Daugherty,
McNamara & Mooney lease has com-
bined with the Jarvis lease to sink a
joint shaft about 100 feet east of
where their first shaft were sunk to
the 50 foot depth as required by the
terms of the lease. At that depth it
was proposed to drift, but instead of
doing that it was deemed advisable to
go around the knoll and start a new
shaft at a point where the lessors
think they will go down on the point
where the three ledges join.

The greatest sensation sprung in
the camp was brought about last
night when Gingles ran into a mass
of the pure gold which he would not
take chances of leaving out alone
after dark. Consequently he sacked
up about 200 pounds of rock that runs
at the rate of two dollars a pound.
A width of four inches was opened
at a depth of 22 feet and when Gin-
gles came into town last night he car-
ried the stuff on the automobile.
